Agency Information Collection Activities; Notification of Chemical Exports; Submission of ICR No. 0795.10 to OMB

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of submission to OMB.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 et seq.), this document announces that the Information Collection Request (ICR) entitled: "TSCA Section 12(b) Notification of Chemical Exports," (EPA ICR No. 0795.10; OMB Control No. 2070-0030) has been forwarded to the Office of Management and Budget (OMB) for review and approval pursuant to the OMB procedures in 5 CFR 1320.12. The ICR, which is abstracted below, describes the nature of the information collection and its estimated cost and burden.

The Agency is requesting that OMB renew for 3 years the existing approval for this ICR, which was scheduled to expire on April 30, 1999. However, OMB granted an emergency extension for this ICR until September 30, 1999. A **Federal Register** document announcing the Agency's intent to seek the renewal of this ICR and the 60-day public comment opportunity, requesting comments on the request and the contents of the ICR, was issued on January 14, 1999 (64 FR 2486). EPA received a number of comments on this ICR during the comment period, which are addressed in a memorandum accompanying the ICR.

DATES: Additional comments may be submitted on or before September 9, 1999.

FOR FURTHER INFORMATION CONTACT: Sandy Farmer at EPA by phone on (202) 260-2740, by e-mail: "farmer.sandy@epamail.epa.gov," or download off the Internet at <http://www.epa.gov/icr/icr.htm> and refer to EPA ICR No. 0795.10.

SUPPLEMENTARY INFORMATION:

Review Requested: This is a request to renew a currently approved information collection pursuant to 5 CFR 1320.12.

ICR Numbers: EPA ICR No. 0795.10; OMB Control No. 2070-0030.

Current Expiration Date: Current OMB approval expires on September 30, 1999.

Title: TSCA Section 12(b) Notification of Chemical Exports.

Abstract: Section 12(b)(2) of the Toxic Substances Control Act (TSCA) requires that any person who exports or intends to export to a foreign country a chemical substance or mixture that is regulated under TSCA sections 4, 5, 6 and/or 7 submit to EPA notification of such export or intent to export. Upon receipt of notification, EPA will advise the government of the importing country of the U.S. regulatory action with respect to that substance. EPA uses the information obtained from the submitter via this collection to advise the government of the importing country.

Responses to the collection of information are mandatory (see 40 CFR part 707). Respondents may claim all or part of a document confidential. EPA will disclose information that is covered by a claim of confidentiality only to the extent permitted by, and in accordance with, the procedures in TSCA section 14 and 40 CFR part 2.

Burden Statement: The annual public reporting burden for this collection of information is estimated to average 0.945 hours per response for an estimated 350 respondents making one or more submissions of information annually. These estimates include the time needed to review instructions; develop, acquire, install and utilize technology and systems for the purposes of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information. No person is required to respond to

a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for these regulations are displayed in 40 CFR part 9.

Respondents/Affected Entities:

Entities potentially affected by this action are companies that export or engage in wholesale sales of chemicals.

Estimated No. of Respondents: 350.

Estimated Total Annual Burden on Respondents: 10,400 hours.

Frequency of Collection: On occasion.

Changes in Burden Estimates: There is an increase (from 3,800 hours to 10,400 hours) in the total estimated respondent burden as compared with that identified in the information collection request most recently approved by OMB. In response to comments and based on interviews with several firms, the Agency has increased the estimated burden hours allocated to compiling lists of products containing TSCA section 12(b) regulated chemicals, and has also added burden hours for checking shipments that do not ultimately result in TSCA 12(b) notices, an aspect of burden that had not been included in the previous collection. Finally, this increase also reflects EPA's experience over the last three years with the number of notices received and the number of companies submitting notices associated with this information collection.

According to the procedures prescribed in 5 CFR 1320.12, EPA has submitted this ICR to OMB for review and approval. Any comments related to the renewal of this ICR should be submitted within 30 days of this document, as described above.

Dated: August 2, 1999.

Director, Regulatory Information Division.
